**A RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A
MEMORANDUM OF UNDERSTANDING WITH THE CABBAGETOWN
INITIATIVE COMMUNITY DEVELOPMENT CORPORATION, INC.,
AND FOR OTHER PURPOSES.**

WHEREAS, The Cabbagetown Initiative Community Development Corporation, Inc. ("Cabbagetown Initiative") is a non-profit corporation whose mission is to enhance the quality of life in the Cabbagetown community by empowering neighbors to act collectively for community development; and

WHEREAS, the initial mission of the Cabbagetown Initiative is to create a park with a community center in the Cabbagetown neighborhood; and

WHEREAS, though the City desires to assist the Cabbagetown Initiative with its mission of creating a park, it does not currently have the resources to develop and maintain a park to the extent desired by the Cabbagetown Initiative; and

WHEREAS, if the City is able to provide parkland in the Cabbagetown area, the Cabbagetown Initiative is willing and able to develop and enhance the Park and assist with its maintenance; and

WHEREAS, in 2002, the City of Atlanta ("City") acquired the following two adjoining parcels of property located in Cabbagetown and designated that the parcels would be utilized as parkland, so that the City could create a park in the Cabbagetown area ("the Park"): 1) 701 Kirkwood Avenue, Atlanta, Georgia 30316, commonly known as the Grant School Property; and 2) 177 Estoria Street, Atlanta, Georgia 30316, commonly known as Sheltering Arms; and

WHEREAS, though a community center shall be located on that portion of the Park located at 177 Estoria Street, the term "Park" as used in this Resolution shall not include the community center and all issues between the City and the Cabbagetown Initiative regarding the Community Center shall be addressed under separate legislation and in a legal document separate from the one discussed herein; and

WHEREAS, the Cabbagetown Initiative's plans for development and enhancement of the Park include demolition of the Grant School building currently located on the Park; design, installation and maintenance of capital improvements to the Park; design, installation, and maintenance of environmentally friendly landscape improvements; maintenance of the Park so that it is consistently in a safe and attractive condition; and organization of educational and recreational programs to be provided at the Park; and

WHEREAS, the City wishes to create a cooperative relationship with the Cabbagetown Initiative as the Cabbagetown Initiative is providing a valuable service to the City and both parties share the common goal of developing, managing, and enhancing the Park;

WHEREAS, it is in the best interest of the City to enter a Memorandum of Understanding ("MOU") with the Cabbagetown Initiative to define the cooperative relationship between the two parties, and to establish the role and obligations of each party in that relationship;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF ATLANTA, GEORGIA, AS FOLLOWS:

Section 1.

The Mayor is hereby authorized, on behalf of the City, to enter into an MOU with the Cabbagetown Initiative regarding the roles and obligations of each of the two parties in the development, maintenance, and enhancement of the Park, and said MOU shall at a minimum provide the following:

- a) The MOU shall make clear that the City owns the Park and shall have authority to make all final decisions regarding the Park, but shall exercise its authority in the spirit of good faith cooperation with the Cabbagetown Initiative.
- b) The MOU shall require the Cabbagetown Initiative to prepare a Master Plan for the Park that shall include, but not be limited to, Park specifications, a blueprint for capital improvements, landscape details, objectives for programming within the Park, and a blueprint for Park management decisions. The Cabbagetown Initiative shall comply with the City's review and approval process for park Master Plans, including but not limited to approval by the Atlanta City Council and Mayor.
- c) The MOU shall provide the Cabbagetown Initiative with the authority and the responsibility to develop, maintain, and manage the Park consistent with the City-approved Master Plan and the MOU.
- d) The MOU shall provide the Cabbagetown Initiative with the authority and primary responsibility for raising additional funds for the Park, and for overseeing the use of the funds it raises, making certain that the funds are utilized consistent with the City-approved Master Plan and the MOU.

The Honorable Robb Pitts, President
and Members, Atlanta City Council
City of Atlanta

Dear President Pitts and Members of Council:

Attached is the latest version of Schedule A for the upcoming bond referendum. As you will see, we are still refining the project listing to assure that it is consistent with your goals of specificity of projects; parity among Council districts; and within the budgets set by categories under the bond election ordinance. We would hope that you could endorse it by resolution in this form, with the understanding that the detail may be tweaked as Public Works and Planning staff continue to work with Council members on its refinement. We are aware that a "best and final" intent list is your preference, and this represents our closest approximation to meet that preference at this time.

Please call David Peters or myself to follow up on this listing, and thank you for your consideration.

Sincerely,

Michael A. Dobbins

Quality of Life Improvements Bond Projects

The projects and programs listed below are all directed at improving the quality of life for Atlanta's citizens, all related to improving the safety and quality of Atlanta's pedestrian environment.

The projects are organized under four broad headings: Sidewalks (about \$47,000,000) Public Plazas and Greenspace (about \$26,000,000); Streets, Bridges and Viaducts (\$55,500,000); and Traffic Control Devices (about \$17,000,000). It should be noted that the sum of these projects will be less than \$150,000,000, the difference reflecting the cost of preparing the bond issue.

Sidewalks are programs and projects that build new or repair existing sidewalks and create attractive and community supportive streetscapes and intersections. (Priority sidewalk projects are attached).

Public Plazas and Greenspace includes programs and projects designed to create public places of quality to support the City's overall community building activities, including public plazas supporting neighborhood retail centers; greenway park systems that serve to support water quality improvement and to connect neighborhoods to nearby schools, retail centers and transit stops. (Priority public plazas and greenspace programs and projects are attached).

Streets, Bridges and Viaducts are programs and projects that improve the City's street environment by creating or retrofitting streets to favor the safety and quality of the pedestrian, bicycle and transit environment in neighborhoods and commercial centers throughout the City. (Priority streets, bridges and viaduct projects are attached).

Traffic Control Devices are programs and projects that are designed to create traffic calming and pedestrian safety devices in roadways and rights-of-way throughout the City as well as retooling the City's traffic signalization system to slow and control vehicular traffic and improve the pedestrian crossing experience and safety, again throughout the City. (Priority Traffic Control Device and related projects are attached).

Taking the projects and programs as a whole, the bond funds will be equally allocated to each Council District or to systems that have City-wide application.
